

GUESTS AT THE TABLE

HOST PROMPTS · AFTER THE ROUNDS

- 1

Read the three cards back.

Say each tactic aloud in order. Use the exact words the table chose — including edits they made.
- 2

Ask: "What did we learn from this?"

Go around the table. Each player names one thing they personally learned from the session..
- 3

Ask: "What shifted — and what caused it?"

Name any position that moved. Identify the moment it turned. This is where transferable insight lives.
- 4

Ask: "What can we do with this information?"

This is the consensus landing. The table has just played — now it names what it learned.
